RENEWABLE ENERGY WILL CONTINUE TO PROVIDE MORE AND MORE OF THE ENERGY WE NEED, LIKE THESE SOLAR PANELS ON MY BACKPACK, CHARGING MY LAPTOP!

I LIKE TO RENEW MY ENERGY BY POWERING UP AT ROCK BOTTOM!

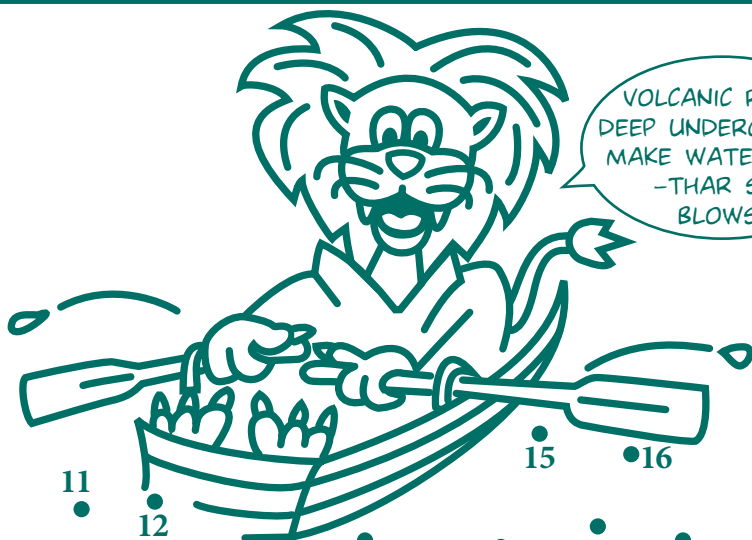

DID YOU KNOW THAT THE U.S.A. HAS SOME OF THE BEST RENEWABLE RESOURCES IN THE WORLD, INCLUDING SOLAR, HYDRO, GEOTHERMAL AND WIND?

(Solar-powered calculator)

THE SUN FEELS GOOD, AND IT'S A SOURCE OF ENERGY.

I'VE GOT AN IDEA: LET'S LEARN ABOUT RENEWABLE ENERGY SOURCES ON OUR WAY TO ROCK BOTTOM!

Color Jack!

VOLCANIC ROCKS DEEP UNDERGROUND MAKE WATER HOT. -THAR SHE BLOWS!

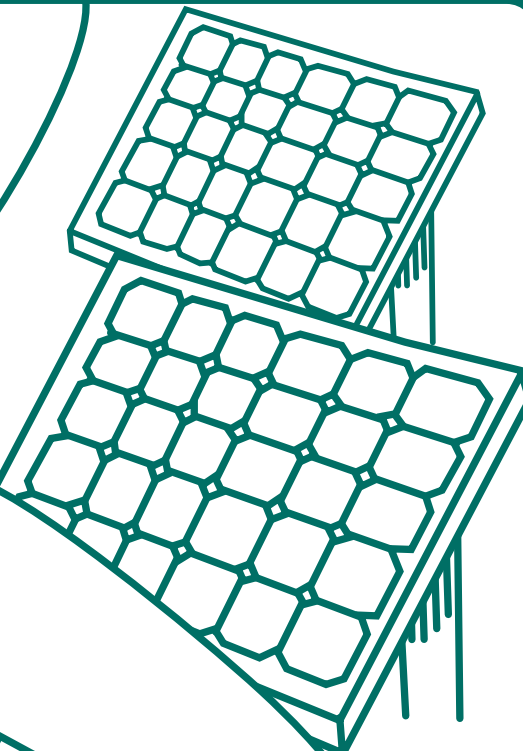

Color These Two Pages!

CLIMBING UP HERE HAS GOT ME WINDED AND HUNGRY!

Wind Energy
can be harnessed on a wind farm. Wind moves the blades, and a generator creates electricity.

Solar panels
have electrons that move when the sun shines on them - but you can't see the electrons, even with a microscope!

Connect the Dots
to see what's keeping Lionel afloat.

Geothermal
heat from geysers and hot springs comes from water heated underground.

END

Hydropower
can come from water stored behind a dam, then released to spin a turbine to create electricity.

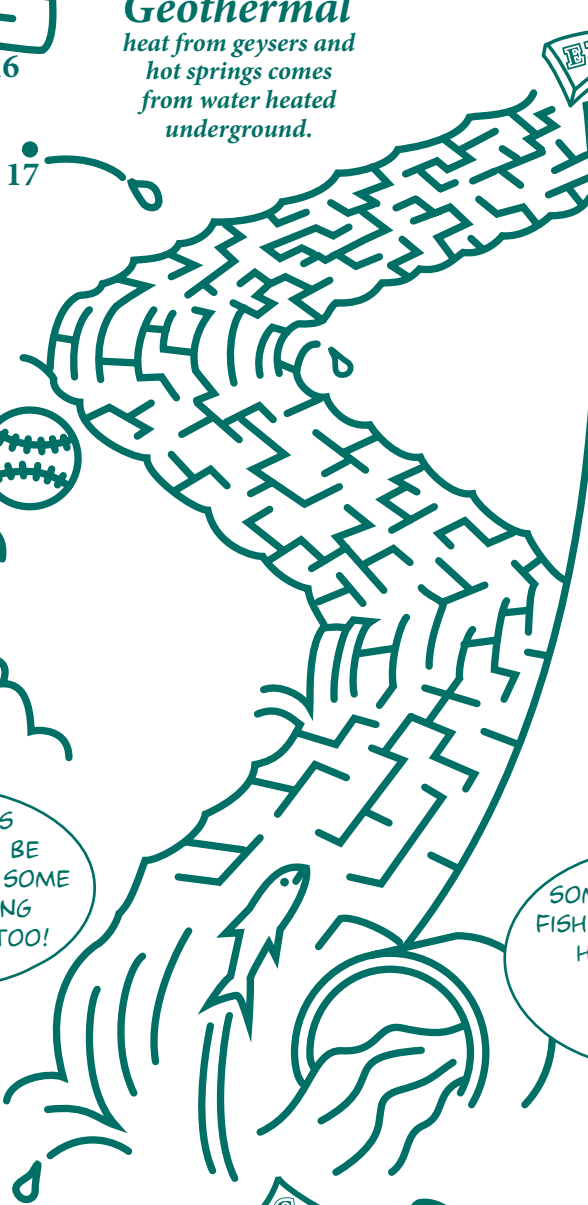

Help Jack
find his way down from the wind turbine!

START

VIDEO GAMES ARE FUN, BUT BE SURE TO SPEND SOME ENERGY PLAYING REAL GAMES, TOO!

Can You Find
the other sports balls? Look for a basketball, a football, a baseball and a volleyball!

SOME DAMS HAVE FISH LADDERS THAT HELP SALMON AND OTHER FISH SWIM UPSTREAM.

Help The Fish
find its way up the fish ladder to the lake!
